

# Benefits of Pandle

---

A match made in bookkeeping heaven

## What's inside?

- 03 Introduction to Pandle
- 04 Simplicity
- 05 Accuracy
- 06 Support
- 07 Making Tax Digital
- 08 Pandle Pro for Free

As a client of The Accountancy Partnership you will benefit from full access to Pandle, our very own cloud accounting software.

## Introduction to Pandle

Pandle is our very own refreshingly simple bookkeeping software, developed in-house with the help of the same accountants who will be working on your accounts.

Simple to use, yet comprehensive in its capabilities, we have designed Pandle from the ground up to cater for small businesses owners and freelancers. So we know it will be the perfect fit for you!

As Pandle has been designed specifically for our clients we deeply value your feedback. Any suggestions or concerns you raise about Pandle are used to inform future developments of the software.

## Simplicity

Pandle's user interface is simple, clean and easy to navigate – perfect for the busy business owner.

We know from experience that simplicity is the best way to reduce bookkeeping errors. We also want our clients to easily understand the software, so we're constantly refining Pandle to make it as intuitive as possible.

Pandle removes the stress of bookkeeping by streamlining every process, here are just a few examples:

Hiding functions which are not relevant to your business, leading to a simpler user interface

Replacing 'accounting jargon' with terms most people will find easier to understand

Using intuitive wizards to process complex data entry tasks, such as wage journals and adjustments.

## Accuracy

The Pandle development team are continually looking for ways to reduce the errors in your bookkeeping.

Where possible Pandle will disallow incorrect data entries or warn you if it thinks your entries may be inaccurate. Pandle uses machine learning algorithms to decide if your data looks correct and will also alert us to any potential issues.

Here are a few examples:

Pandle will block you from editing transactions for a submitted VAT return

Pandle will notify you if your financial year in Pandle does not match Companies House

## Data checking

In addition to these automatic checks, our accountants will periodically review your records and notify you of their findings. So you can sleep easy knowing that we're working together to keep your bookkeeping records as accurate as possible.

## Support

As Pandle has been developed with the help of our accountants here at The Accountancy Partnership, we know the software like the back of our hand.

This means that the software support and guidance you receive from us will come from an in depth knowledge of how Pandle works. So if there ever is a problem, we'll be able to get it sorted as quickly as possible.

We have also created a dedicated help centre where you can access how to guides, FAQs and tutorial videos, so you will never be short of ways to find the answer you're looking for at [support.pandle.com](https://support.pandle.com).

## Making Tax Digital

From 1st April 2019 HMRC will be introducing the first round of changes in the Making Tax Digital (MTD) initiative, MTD for VAT.

This means that any VAT registered businesses, with a turnover over £85,000 per year, will have to keep digital bookkeeping records and submit their VAT returns online.

As Pandle is a HMRC recognised software supplier supporting MTD for VAT you can be confident in the knowledge that we are fully prepared for the transition.

If you haven't heard about MTD yet, you can find out more by reading our guide on [Preparing Your Business for MTD](#).

## Pandle Pro for free

As our client, you can use Pandle Pro (normally £5 +VAT per month) at no extra cost.

Pandle Pro has a variety of extra features to improve the accuracy and efficiency of your bookkeeping.

- ✓ Bank feeds
- ✓ Receipt uploads
- ✓ Project handling
- ✓ Cash flow forecasting
- ✓ User permissions
- ✓ Unlimited users
- ✓ Premium invoice templates
- ✓ Message centre
- ✓ PayPal feeds

## How to get Pandle Pro for free

Once you've created your free Pandle account, simply click 'Add Accountant' from the Users tab in your Company Settings menu.

Enter the email info@theaccountancy.co.uk and tick the checkbox. That's it! We'll enable your free subscription within 24 hours, so all you need to do is sit back and relax.

## Using Pandle

Here are our top tips to help you get the most out of your Pandle account.

Create and send your invoices through Pandle (if you invoice your customers)

Set up Pandle Pay so you can take card payments directly from your invoices

Use our bank feeds feature to automatically import your banking transactions into Pandle

If you would like to use Pandle as your bookkeeping solution simply click the sign up button below to get started:
